

Interested in writing an article,

MBBA-NH, through the direction of Barbara Cunningham has an opportunity to help the NH Union Leader to fill its "Avenues" real estate section on Fridays. With periodic articles related to the real estate and finance industry, through a connection she has with the Greater Manchester/Nashua Board of Realtors. This gives MBBA-NH a chance to expand awareness of MBBA-NH and what our contribution is to the real estate industry. Better yet, it doesn't cost us anything and may even help our individual members to get their names out there.

All the Union Leader asks is: the subject matter be something of relevance to its readership, be original in content or follow the rules of using another's material by asking permission in advance to use it and giving the source credit in the article and that it be something the Union Leader can consider to be exclusive. In other words, we don't offer it to the Union Leader and also to the Nashua Telegraph and Concord Monitor. It should be about one to two standard newspaper columns in length.

If anyone is interested in taking a stab at writing something, please send it to Barbara Cunningham and copy Steve Bauer. One thing that the Union Leader indicated might be of particular interest are the newer regulations and how they may impact consumers, like the S.A.F.E. Act, and the Dodd-Frank Bill. Or, what the ultimate fate may be of Fannie Mae and Freddie Mac if anyone wants to take a stab at that one.
